

KALI CHARAN NUNNABHATLA

Full Stack Developer

+91 70930 62349 • charannunnabhatla@gmail.com • [linkedin](#) | [Portfolio](#) | [Github](#) • Hyderabad

Summary

Computer Science graduate specializing in Full Stack Development, with expertise in ReactJS, NextJS, Flutter, and NodeJS. Skilled in creating scalable, high-performance web and mobile applications, delivering user-focused solutions, and contributing to impactful projects. Led a 4-person team to successfully deliver a Student Services app on Android and iOS, demonstrating strong problem-solving and collaboration skills.

Education

St. Mary's Engineering College

Bachelor's in Technology In CSE - AI&ML

Deshmukhi (V) - TS

08/2020 - 05/2024

Skills

React JS • Next JS • Flutter

JavaScript • TypeScript • Python • Dart

Express JS • Node JS • RESTful APIs • HTML • CSS • TailwindCSS • Git • GitHub Pages • Vercel

Projects

TASKS PRO

12/2024 - Present

Designed and developed a comprehensive task management application to enhance productivity and organization.

- Implemented full CRUD (Create, Read, Update, Delete) functionality for tasks, enabling users to efficiently manage their daily activities and long-term goals.
- Integrated a note-taking feature, allowing users to add detailed descriptions or supplementary information to each task.
- A custom-built interactive calendar with task visualization, smooth animations, and a modern dark minimalistic UI for an enhanced user experience.
- A link to live website <https://tasks-pro.vercel.app/>

DOTTED LIFE

08/2024 - 09/2024

A web application designed to help users track and visualize their life progress.

- Developed a responsive webpage using ReactJS, Vite, and TailwindCSS.
- Reduced page load times by 20% and achieved 100 scores on Google Lighthouse for performance.
- A link to live website <https://charan-nunnabhatla.github.io/dotted-life/>

GROCERY

09/2024 - Present

An extensive grocery website for online shopping.

- Built a responsive webpage featuring over 20,000 searchable products using ReactJS.
- Achieved a 30% reduction in load time.
- A link to live website <https://charan-nunnabhatla.github.io/e-commerce/>

PORTFOLIO

08/2024 - 01/2025

A personal online portfolio showcasing skills, projects, and professional achievements.

- Interactive project list with detailed descriptions and links to live demos.
- Focused on responsive, modern, and minimalist design.
- A link to live website <https://charan-nunnabhatla.github.io/about/>

Projects

SMEC STUDENT SERVICES APP

09/2022 - 02/2023

The SMEC Student Services app facilitates effective communication for educational services.

- Built a Student Services app for Android and iOS using Flutter, with Firebase integration.
- Streamlined communication and services for students and administrators through real-time notifications.
- Developed as part of a major project and earned high value from the college HODs.

Key Achievements

Tasks Pro Responsiveness

Ensured responsiveness across various devices, making the app accessible to a broader audience.

Student Services App

Received positive feedback from college HODs for the app's effectiveness and user experience.

Led a 4-person team to successfully deliver a Student Services app

Portfolio

A personal portfolio showcasing professional skills, projects, and achievements online.
