- MPC

WORK EXPERIENCE

Front-end Development

From Personal Projects

Developing my personal apps introduced me to responsive design challenges, which I overcame to gain valuable experience.

Achievements/Tasks

- Enhancing cross-device compatibility and user experience.
- Simple and responsive design with a minimalist aesthetic.

Back-end Development

From Personal Projects

Achievements/Tasks

- Enabled secure data exchange between client and server using encrypted communication protocols.
- Using mobile phone as a server using termux, NoIP and Python.

SKILLS

ReactJS

Flutter

Python

JavaScript

NodeJS

TypeScript

TailwindCSS

ExpressJS

Flask

PERSONAL PROJECTS

Dotted Life (11/2024)

- Visualize your life as a series of dots, marking the past and the future.
- <https://charan-nunnabhatla.github.io/dotted-life/>

Grocery Website (12/2024)

- A platform featuring 8,000+ grocery products, all easily searchable.
- <https://charan-nunnabhatla.github.io/e-commerce/>

Portfolio (12/2024)

- My personal about page, designed with minimalism and modernity in mind.
- <https://charan-nunnabhatla.github.io/about/>

ACHIEVEMENTS

Grocery Website

Created a scalable e-commerce platform with 8,000+ searchable products, leveraging modern web technologies.

Dotted Life

Developed a sleek personal productivity web app using React.js, focusing on performance and responsiveness.

College App

Built a Flutter app powered by Firebase for real-time communication and campus service management.
